

# Just One Ring Jens Pind Anodized Aluminum Necklace & Earrings

2021 update

These diagrams correspond with the Blue Buddha Boutique (B3) kits sold as of 2021.

Note that the colored rings in sizes H16 and P16 are only used in the earrings (though you'll use plenty of H16 plain aluminum rings in the necklace).

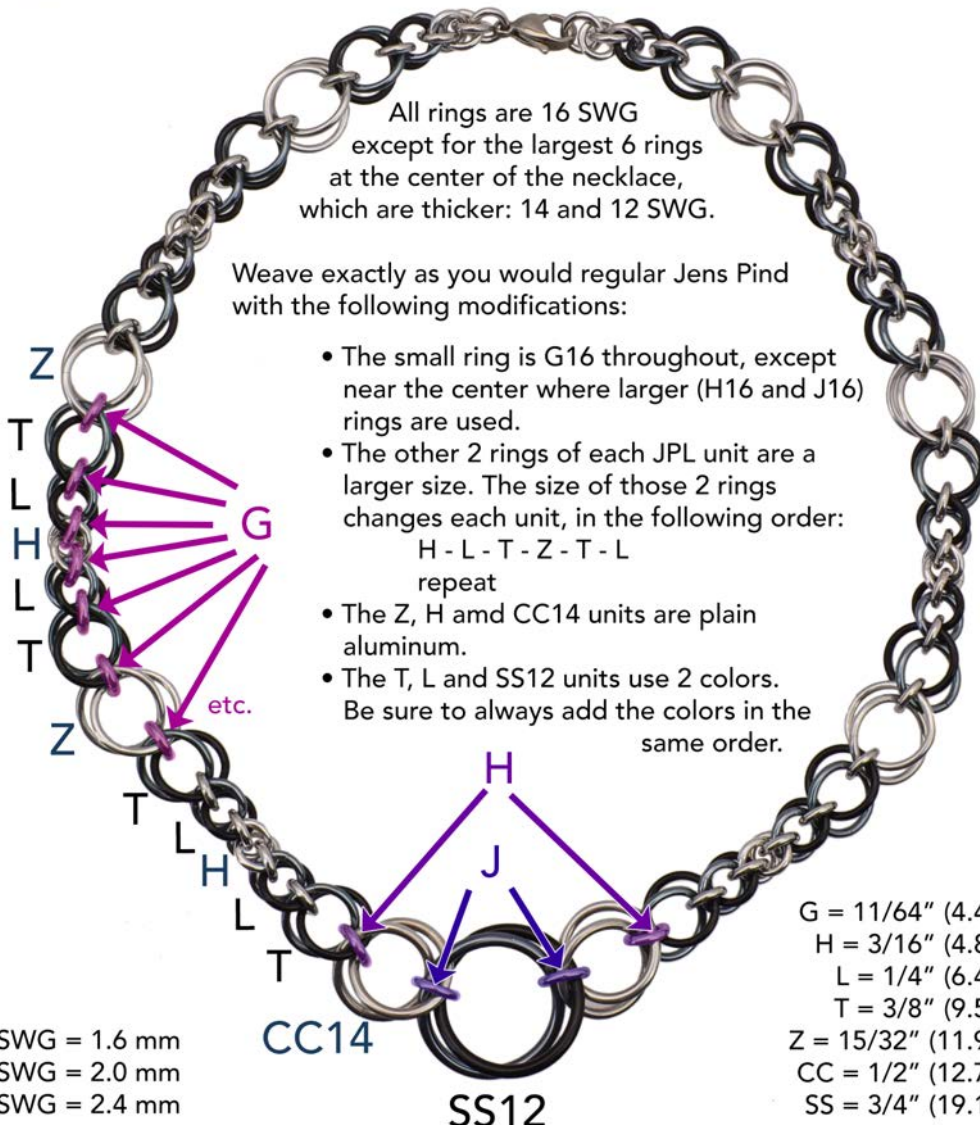

B3 kits include enough rings to make a necklace 20.5" long plus a pair of earrings, plus extra rings.

All rings are 16 SWG except the initial tiny ring that connects to the earwire. Weave exactly as you would regular Jens Pind, except adjust the ring sizes as shown. Be sure to add the colored rings in the same order for each unit.

- D = 1/8" (3.2 mm)
- G = 11/64" (4.4 mm)
- H = 3/16" (4.8 mm)
- L = 1/4" (6.4 mm)
- P = 5/6" (7.1 mm)
- T = 3/8" (9.5 mm)

- 18 SWG = 1.2 mm
- 16 SWG = 1.6 mm

All rings are 16 SWG except for the largest 6 rings at the center of the necklace, which are thicker: 14 and 12 SWG.

Weave exactly as you would regular Jens Pind with the following modifications:

- The small ring is G16 throughout, except near the center where larger (H16 and J16) rings are used.
- The other 2 rings of each JPL unit are a larger size. The size of those 2 rings changes each unit, in the following order:  
H - L - T - Z - T - L  
repeat
- The Z, H and CC14 units are plain aluminum.
- The T, L and SS12 units use 2 colors. Be sure to always add the colors in the same order.

- 16 SWG = 1.6 mm
- 14 SWG = 2.0 mm
- 12 SWG = 2.4 mm

- G = 11/64" (4.4 mm)
- H = 3/16" (4.8 mm)
- L = 1/4" (6.4 mm)
- T = 3/8" (9.5 mm)
- Z = 15/32" (11.9 mm)
- CC = 1/2" (12.7 mm)
- SS = 3/4" (19.1 mm)
